

# VFD Tech Product Brochure

# Who We Are

At VFD Tech, we are a trailblazing technology company that prides itself on combining cutting-edge digital expertise with robust banking credentials. Founded with a vision to revolutionize the financial landscape across Africa, we have emerged as a leading provider of innovative solutions for businesses and individuals alike.

# Our Journey

Since our inception in 2019 we have embarked on a transformative journey, driven by a passion for technology and a commitment to enhancing financial services. Our team's diverse backgrounds, including ex-startup founders and top talents in Product, UX/UI, Software development, and Machine & Deep Learning, form the DNA of VFD Tech. Together, we share a common vision: to bring a lean, user-centric approach to product innovation and software development, backed by a deep understanding of our clients' business needs.

---

Our Product offering:

# Web and App Development

We offer software services which includes cutting edge mobile and website developments.

## Services

### Native Mobile App Development

Our mobile app developers can build high-quality native apps for both Android and iOS systems aligned with your business and security requirements.

### Hybrid Mobile App Development

Cross-platform apps that can work in different environments thanks to a unique blend of native and web app technologies.

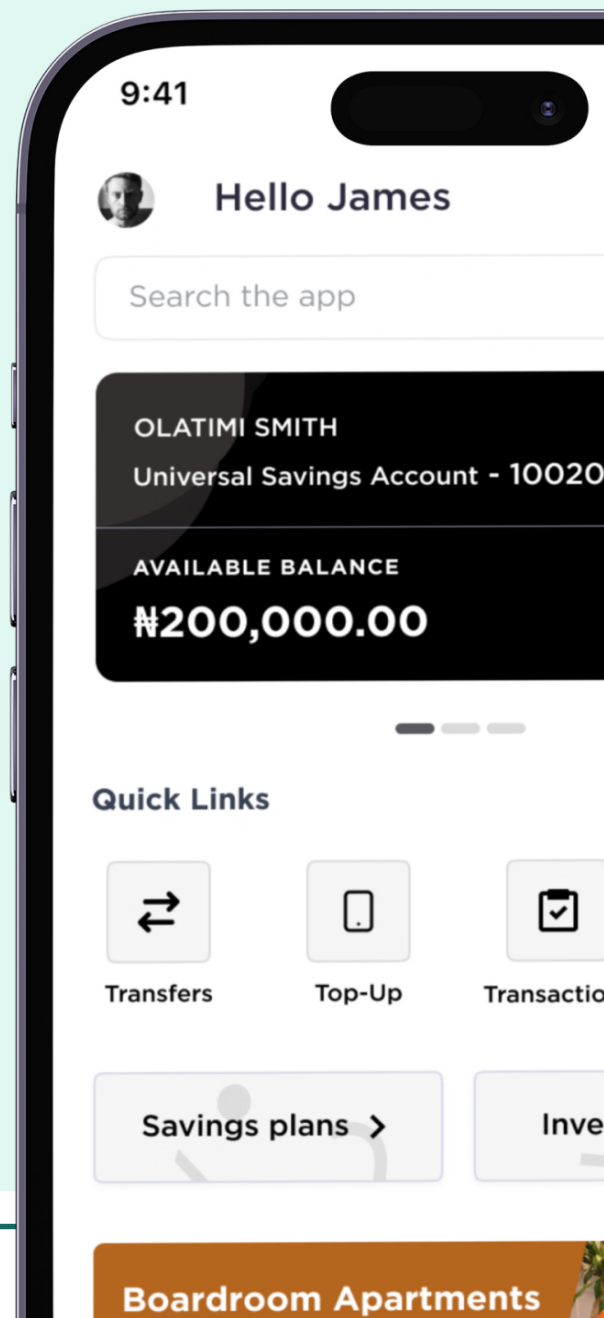

### Progressive Web App Development

With Progressive Web Apps, we deliver native-like capabilities and installability while reaching anyone, anywhere, on any device with a single codebase.

### Maintenance and post-warranty support

We have all the expertise you need to produce full-fledged, stable, and scalable mobile applications.

# Benefits of web application development in modern businesses

---

## **Global Reach:**

Websites and apps allow businesses to tap into a worldwide audience, breaking geographical barriers.

## **Cost-Effective Marketing:**

Digital platforms provide cost-efficient marketing tools like SEO and Pay-per-click, driving targeted traffic and higher conversion rates.

## **Instant Feedback and Interaction:**

Real-time communication tools on digital platforms foster direct customer engagement, building trust and loyalty.

## **24/7 Accessibility:**

Digital platforms are always available, offering customers the convenience to interact with a business anytime, anywhere.

## **Personalized User Experience:**

Data analytics enable businesses to tailor the browsing or shopping experience, enhancing customer satisfaction and retention.

## **Data Collection and Analytics:**

Websites and apps offer insights into customer behavior and preferences, allowing businesses to refine strategies and offerings for better results.

# Banking as a service

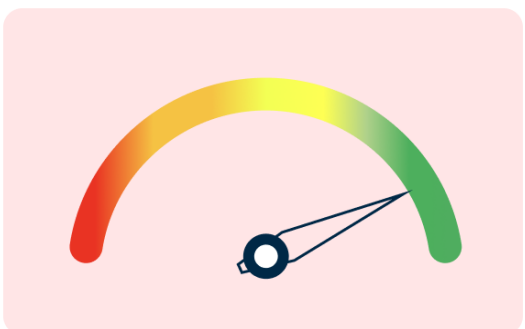

VFD currently offers various BaaS products via API's that can be integrated by our BaaS Clients and tailored specifically to solve the financial needs of their customers.

## Our Stellar BaaS Offerings

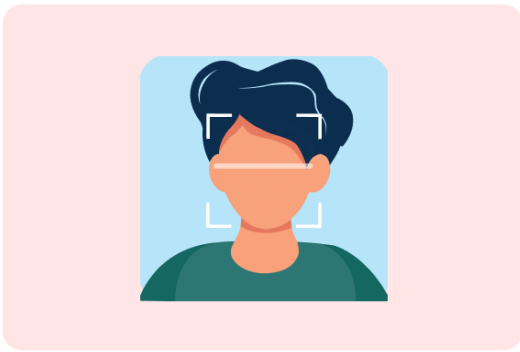

### Collection & Transfer APIs

- Account & Wallet Creation: Choose between static and dynamic wallets tailored for your needs. (Fixed & Dynamic Accounts )
- QR Collections: Streamlined and efficient collection system.
- Transfer API: Facilitate both intra and interbank transfers with ease and access transaction details in real-time.
- Direct Debit Mandate: Empower your business to set up direct debit instructions, ideal for lending services.

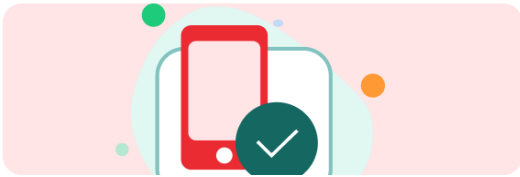

### Credit Solutions

- Loan/Credit API: Automated loan disbursement and portfolio growth for BaaS partners.
- Credit Check: Ensure reliability and trustworthiness.

## KYC

- Liveness Check: Advanced facial recognition to verify real users.
- Phone Number Verification: Retrieve customer details swiftly.
- BVN for Account Creation: Simplified onboarding.
- Payment API: Facilitate bill payments seamlessly across various platforms.

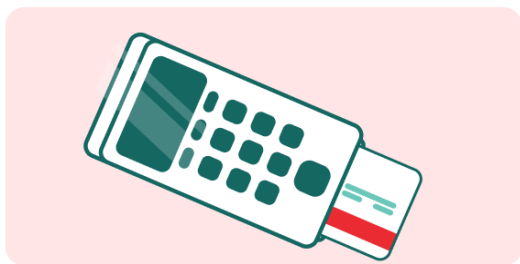

## Bill payment API

This API is available to clients who wish to offer bill payment services across various merchants on their platform.

## Card Services (coming soon)

- Card Payment (Web Payments): Reliable payment gateway for card transactions.
- Card Issuance & Management: Stay tuned for our upcoming innovations!
- POS Infrastructure: Smart routing to ensure consistent payment collections with flexible settlement options.

## POS Infrastructure:

Our smart routing system helps to ensure merchants or agents of businesses onboarded on our platform are always able to collect payments from their customers and they can also decide how they wish to settle their merchants and agents (i.e. Instant or T+1)

# Data Analysis for SMEs and Large Institutions

Navigate Your Industry with Precision and Confidence.

In today's fast-paced world, data is the backbone of decision-making of your organisation. Yet, deciphering this vast sea of information can be overwhelming. At VFDTech Limited, we simplify this process for you, turning complex data points into actionable insights.

- **Trade Data Insights:** Take advantage of our specialized analysis of your trade data. Understand market trends, customer behaviors, and competitive benchmarks without any financial commitment.
- **Customized Solutions:** Every business is unique, and so are its data requirements. Whether you're an SME or a large institution, our solutions are tailor-made to suit your specific needs.
- **Predictive Analytics:** Don't just understand where your business stands today; predict where it could be tomorrow. Our advanced analytics tools can help forecast market movements, allowing you to strategize effectively.
- **Data Visualization Tools:** Make sense of your data in a glance with our intuitive data visualization solutions. From dashboards to graphs, get a clear picture of your business metrics.
- **Data Security:** Your data is invaluable, and its security is our top priority. We employ cutting-edge encryption and security measures to ensure that your data remains confidential and protected.
- **Dedicated Data Teams:** Our team of seasoned analysts and data scientists are on hand to guide you through the data maze. From initial data collection to final insights, we're with you at every step.

# Innovation: Collaborate to Elevate

Your Bridge from Vision to Reality.

In the dynamic world of technology, VFD Tech Limited stands as a beacon for collective innovation. We bring together diverse minds, transforming ideas into groundbreaking solutions.

## Collaboration Highlights:

- **Open Innovation Platforms:** We excel in building innovation platforms. Let us assist you in hosting ideation events, from hackathons to innovation challenges, and in analyzing the data collected. No matter the stage of your vision, it finds a home with us.
- **Partnerships & Collaborations:** Whether you're an individual visionary or a corporate titan, we invite you to join hands with us. Together, we merge tech expertise with industry insights to craft solutions that set market trends.
- **Consultation by Experts:** Traverse the tech realm confidently with guidance from seasoned professionals. From technological intricacies to strategic market insights, our experts have you comprehensively covered.

Embark on this innovation journey with VFD Tech Limited. When your ideas align with our expertise, together.
